

WHICH AC SYSTEM IS RIGHT FOR YOU?

FIXED CAPACITY

COST

EFFICIENCY

COMFORT: Ability to meet desired temperature when running at 100% capacity

OTHER CONSIDERATIONS: The system is either 100% on or off

TWO-STAGE

COST

EFFICIENCY

COMFORT: Better airflow, tighter temperature control and lower humidity

OTHER CONSIDERATIONS: Runs at two speeds—high or low

VARIABLE SPEED

COST

EFFICIENCY

COMFORT: Highest level of tight temperature and humidity control

OTHER CONSIDERATIONS: Runs at high, low and anything in between
