

Comfort *Clash* at school and work

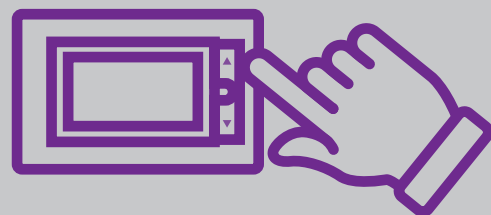

Uncomfortable students and workers struggle to stay productive

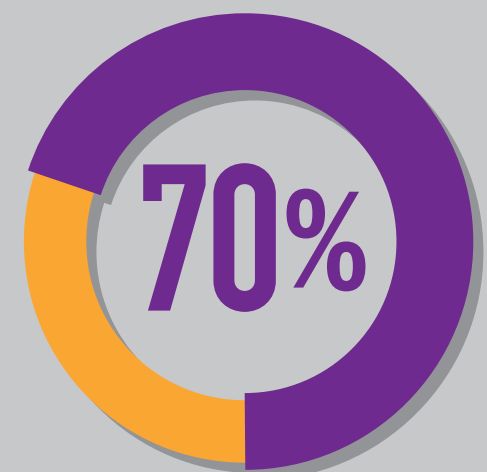

Unpleasant environments at school or work are a daily struggle for many, according to Emerson's consumer survey on heating and cooling comfort. **Actively disengaged employees cost** the U.S. \$450 to \$550 billion per year **in lost productivity*** and final exam scores among continuously **distracted students** are 18 percent lower.**

Had a disagreement about temperature

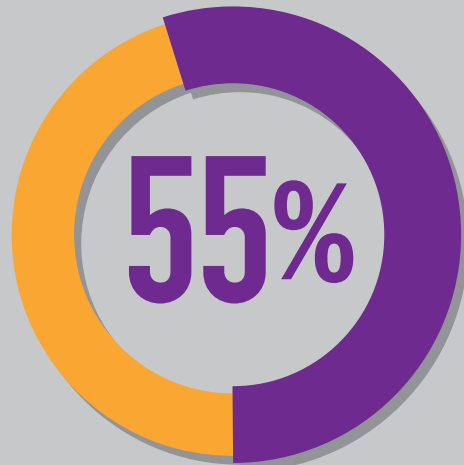

Asked management to change the temp

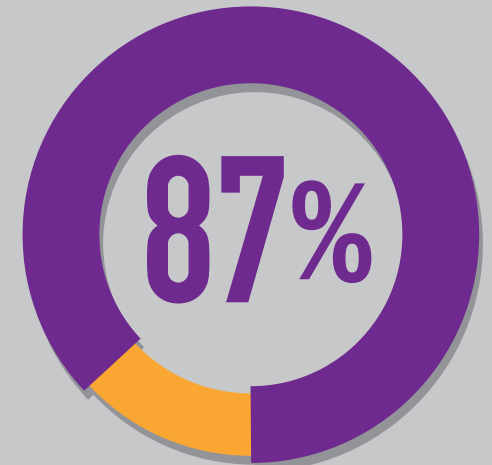

Say discomfort has affected their productivity

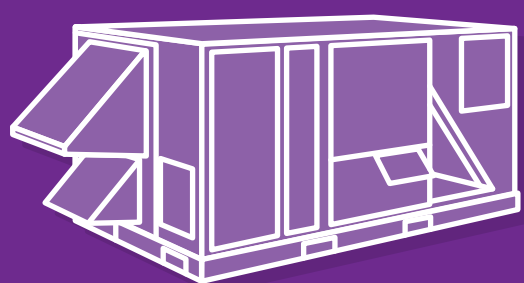

Admitted to trying to break into the thermostat to change it themselves

Have been embarrassed or criticized by their discomfort

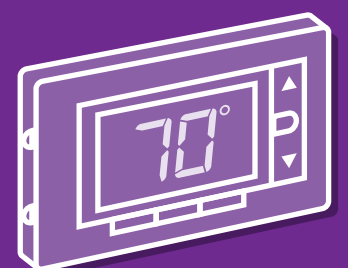

Say there are differences in temp throughout the building

Apply the Science of Livability

The heating and cooling experts at Emerson know how to keep schools and workplaces comfortable and operating efficiently with **modulating HVAC systems** and **building controls**. To learn more, visit [AC-HeatingConnect.com](https://www.ac-heatingconnect.com).
